

ENVISION PHARMA
GROUP

Together, turning vision into reality

Envision Technology Solutions – Configuration Associate – Horsham, UK

A career in the Technology team at Envision Pharma Group may be just what you're looking for!

About Envision Pharma Group

Envision Technology Solutions (ETS) designs, develops, implements, and supports innovative and strategic management software for our life sciences clients including Datavision®, the industry-leading publications planning software. Using prevailing web-based technologies, we build our scalable tools using modern open systems design. Our solutions are based on our unrivaled experience in the life sciences industry, and a deep understanding of the needs of our clients. Only then do we undertake a rigorous process to build the right solution using the right technologies.

Roles and responsibilities of the Configuration Specialist include:

Create and customize web and desktop applications:

- Adhere to software development lifecycle
- Adhere to project timelines and ensure quality with thorough testing
- Raise issues and risk awareness.

Create and manage application environments:

- Use Java Application environment
- Perform basic SQL Server operations
- Assist with the creation of implementation plans for deployments and upgrades.

Provide day-to-day support for the Customer Care hotline team:

- Duplicate and investigate application issues
- Provide solutions to identified problems
- Partner with other ETS staff to ensure that support tickets are resolved quickly and to a high standard.

Technical and professional requirements:

We believe that configuring a software platform according to a client's needs is a craft. The successful candidate will have in his/her toolkit a range of skills: a strong interest in computing and/or IT with qualifications to BTEC or degree level; 1 year of applied SQL skills; knowledge of the Software Development lifecycle; and an interest in medical/life sciences and publishing. In addition, you will be a self-starter who is able to work independently or as part of a team. You will be highly organised, able to manage multiple tasks at any one time, and be able to manage competing deadlines. Excellent attention to detail is a given, and a desire to provide the highest quality service to our clients is essential in this role.

What is it like working for Envision Pharma Group?

Training and mentoring will be provided according to your previous experience. Development goals and milestones will be agreed with you so that you can monitor your own progress, measure your success, and help to shape the role.

We are a dynamic and rewarding company to work for, offering excellent benefits and a friendly, supportive and vibrant work environment.
