

doDOC Collaborative Review Suite

Simple and productive Word, PDF,
and PPT real-time collaboration

Collaborate in real time with full traceability

Draft, review, and approve versions of a document without having to use several complicated systems. Your team members can write simultaneously, make changes, and post comments all in one single document.

Use micro workflows to provide efficiency

Reference your colleagues in a comment or assign them a task to notify and direct their attention to specific parts of the document.

The most reliable and
powerful document review
suite to improve collaboration,
made especially for pharma

Collaborative Review Suite integrates
with iEnvision® and Veeva, or is
available as a stand-alone solution

ENVISION PHARMA
GROUP

Driven by evidence, enabled by technology

Maximize Word for the review process

Draft in Word and review collaboratively in doDOC. Track, accept, and reject collaborators' changes and comments in one single document.

Work efficiently with citations

Using EndNote or Mendeley? No problem! doDOC supports Word documents with references and enables users to add new references directly from PubMed and Scopus.
