

iEnvision Medical Education

The solution for the management and compliant tracking of requests for medical education grants

- As your portfolio of medical education grants continues to expand, and the landscape continues to change, you need a system that can keep up with you
- We understand the importance of being able to manage your diverse medical education portfolio with transparency and compliance
- Envision Pharma Group is an industry leader within the grants area and has been supporting pharmaceutical companies' grant programs since 2007

Adding value to your organization

Save time

Web portal collects all required data at the appropriate time, reducing the need to request or find additional information

Strategic alignment and elimination of redundancies

Allow visibility of all grant requests from submitted to closed, and outcomes submitted by an organization

Effective high-level grant management

Ability to align projects to medical objectives/strategies to determine gaps and report appropriately

Progress projects efficiently

An intuitive menu of actions that is dynamic and changes as the grant progresses – you immediately know what needs to be done next

Confidence in compliance with the ability to investigate queries

Documentation of reviews, reconciliation, and close out processes with a full audit trail of all changes and organization checks

Quick access to key outcome metrics

Key performance indicators are visible on real-time Dashboards (eg, number of submissions, approval rate, financial summary, grants by status)

Ensure all relevant steps in your project are covered from day one

A standardized workflow in line with industry standards and can be configured to a company's standard operating procedures (SOPs)

Confidence in compliant project progression

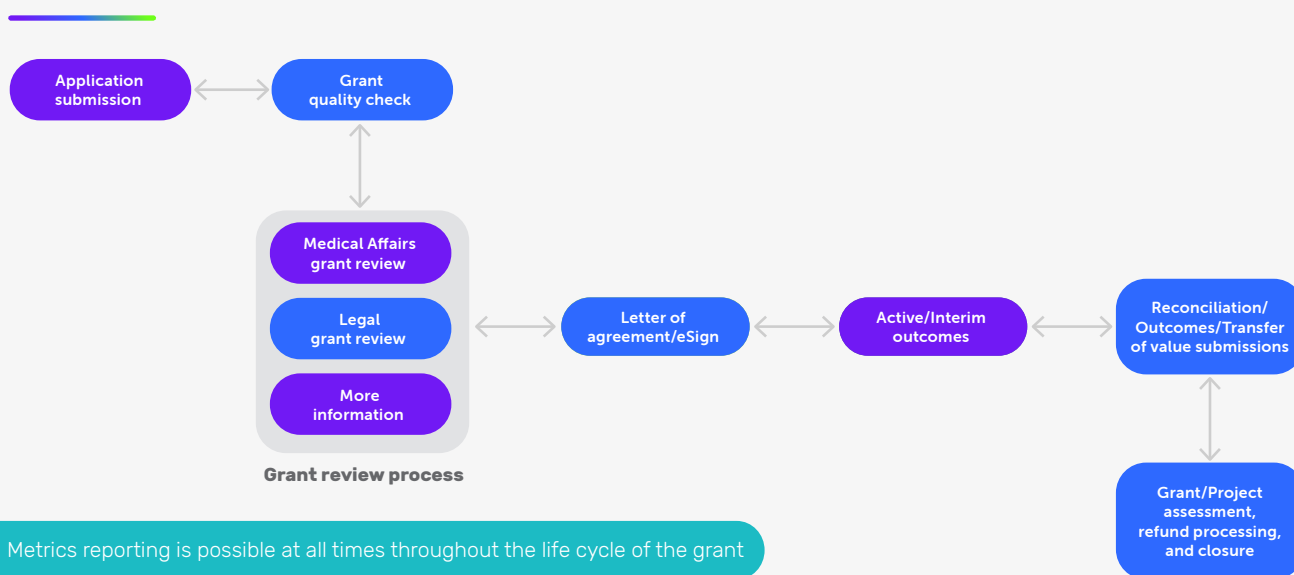

Checklists that ensure adherence with company SOPs and working practices

Ensure the currency and accuracy of your reported information

Ability to filter and develop real-time ad hoc reports

Medical Education workflow - Helping your business achieve its medical education goals

iEnvision - The global medical affairs platform

The rapidly evolving medical affairs functional landscape and its growing importance within pharmaceutical companies is accompanied by an increasingly complex world of stakeholder and partner interactions, connections, and compliance requirements.

iEnvision is an advanced software platform supporting medical affairs-led business transformation, operational excellence, and connectivity – purpose-built to help strategically plan and manage medical evidence generation, grant programs, and communication activities.
